Comic Relief believes that every person has the right to quality mental health support where and when they need it and has the right to live free from stigma and discrimination. There are two aims to this funding call:

1. A focus on improving mental wellbeing and helping people function better by promoting the use of sports-based approaches that support wellbeing, improve functioning & reduce distress.
2. Ensure mental health is intentional, not incidental - to prioritise organisations running programmes which combine sport or physical activities with specific therapeutic elements, and who have access to mental health expertise.

Applications should represent less than 40% of the organisation's total income in any one year. Capital costs should make up less than 25% of the funding amount applied for. Comic Relief predominantly funds registered charities. # Sport England's Community Asset Fund

**Deadline:**
This is a rolling programme and applications can be submitted at any time.

**Details:**
Sports clubs, local authorities, schools and community organisations can apply for grants of £1,000–£150,000 to enhance local sports and recreational facilities. The funding can be used to enhance traditional sports facilities as well as outdoor spaces like canal towpaths, woodlands and open spaces; etc. that can be used as part of an active lifestyle. Statutory bodies and education establishments will specifically need to:

- Provide a minimum of pound-for-pound partnership funding;
- Demonstrate the strategic need for their project proportionate to the scale of investment requested;
- Limit requests to a maximum of £150,000 within any 12-month period.

Sport England typically expect their awards to be either: Small-scale investments typically ranging from £1,000 to £15,000. These will address emergency works due to something like storm or flood damage, or something totally unexpected that is stopping people from being able to stay active right now. Medium-scale investments typically ranging from between £15,000 to £50,000. These will address more substantial changes. This might be an upgrade to an existing facility or developing a new space in the community. By exception, Sport England will consider larger investments ranging from £50,000 to £150,000. This will be when organisations can demonstrate a considerable impact or are targeting under-represented groups. They are also unlikely to have received funding from Sport England previously.

**THE SPORTING CAPITAL FUND**

**Deadline:**
Applications can be submitted at any time.

**Details:**
The Sporting Capital Fund is a loan funding opportunity for community sports organisations who want to make a difference in the community through sport, physical activity or in a sport setting and want to grow and become more sustainable by generating more or new income. Unsecured loans of £50,000 to £150,000, repayable over 3 to 5 years are available to help organisations develop new projects, operations & revenue streams & can be used for projects & activities i.e.:

- Equipment to support revenue streams;
- Recruitment, training and deployment of staff and volunteers;
- Equipment to support business functions, inc. finance, project management & governance;
- Other operating costs.

If needed, a repayment holiday of up to 24 months may be available, giving projects time to generate sustainable revenue before starting to repay the loan. Loans will not cover “bricks and mortar” capital i.e. a new roof, but could be an investment, for example, to support a community café as a new revenue stream and pay for café kit and equipment, training deployment of new staff and volunteers, management support to get the café operating and funding towards marketing the new venture. A wide range of organisations can apply from community sports clubs to social enterprises, charities and profit-with-purpose businesses that deliver sport and physical activity. Where appropriate, grant funding through the Access Reach Fund, may be available for organisations that need support to get ready to take on repayable investment. This fund offers small grants to charities and social enterprises who are looking to raise investment with an approved social investor – called Access Points. The grant will be used to help them close a deal or secure an investment.

The grants awarded cannot exceed 50% of the total project cost. The Football Foundation strongly recommend that applicants use the pre-application advice offered on our behalf by The FA and the network of County FAs around England.
