

1. Policies not 'Saved' beyond 2008

The UDP was adopted under transitional arrangements in the Planning and Compulsory Purchase Act 2004. These arrangements allowed policies to be adopted for an initial three year period from adoption (i.e. to 6th April 2008), after which time they would lapse unless separate approval was given by the Secretary of State to 'save' them beyond this initial period. Halton applied to the Secretary of State and received permission to save all but six of the UDP policies. The six policies not requested to be saved for a further period therefore lapsed as of the 7th April 2008.
